

CANDIDATE PROFILE

Senior Product Analyst

brian.kamau@example.com | +254 722345678 | Nairobi, Kenya | https://linkedin.com/in/chineduokafor

TECHNICAL SUMMARY

Operations analyst with five years of experience improving reporting, vendor coordination, and branch performance across retail and logistics teams. Known for turning messy operational data into practical actions that reduce delays and improve customer response time.

PROJECTS

Branch Performance Dashboard

Excel, Power BI

Created a dashboard summarising weekly stock-outs, delivery delays, and customer escalation trends for branch leaders.

Retention Cohort Toolkit

SQL, Python, Looker Studio

Created reusable cohort analysis templates that helped teams compare city-level retention and identify weak onboarding points.

EXPERIENCE

Operations Analyst

Kano Retail Group | Lagos, Nigeria

2022-02 – Present

Reduced weekly reporting time by 35% by redesigning Excel dashboards for 18 branch managers.

Coordinated stock follow-ups with procurement and cut unresolved branch requests from 120 to 54 within one quarter.

Built a KPI tracker used by regional managers to monitor delivery delays, stock-outs, and customer complaints.

Operations Assistant

Bridge Logistics | Ikeja, Nigeria

2019-08 – 2022-01

Tracked delivery exceptions across Lagos routes and improved same-day escalation accuracy by 28%.

Prepared weekly route performance summaries for operations leads and customer support teams.

Product Analyst

Nairobi Mobility Lab | Nairobi, Kenya

2018-04 – 2020-12

Built product dashboards used by engineering, operations, and growth teams to track activation, retention, and support issues.

Partnered with product managers to design experiments and present trade-off recommendations to leadership.

EDUCATION

Bachelor of Science (BSc)

University of Lagos | Lagos, Nigeria

2015 – 2019 | Second Class Upper
